Folio-to-page Guide to the Chronicle of Michael the Great

By Sebastian P. Brock

The following guide is to be used in conjunction with Sebastian P. Brock's "Text Summary" in G. Y. Ibrahim (ed.), *The Edessa-Aleppo Syriac Codex of the Chronicle of Michael the Great* (in G. A. Kiraz (ed.), Texts and Translations of the Chronicle of Michael the Great, volume 1), xvii-xxxi.

Preliminary note: The folio numbers used here correspond to the Arabic foliation (to be found on each verso of the codex); in the one case where a number has been erroneously repeated, the second occurrence is designated as f.131bis. The number in square brackets following the folio number is the page number of the Syriac text in Chabot's edition. The numbers on the right are the page numbers in the Gorgias photographic edition. Since Chabot's pagination is also indicated in his French translation, it should thus prove easy to correlate the page numbers of the Gorgias photographic edition of the Aleppo manuscript with Chabot's translation.
